Component replacement
GitHub
Version control workflows
Basic scripting
Customer service
Team leadership
Effective communication

PROFESSIONAL EXPERIENCE

Freelance IT & Computer Repair Technician Self-Employed | 2015 - Present

Diagnosed and repaired various hardware and software issues for personal and client devices, including laptops, desktops, and mobile devices.

Recovered lost or inaccessible data from hard drives, reformatted devices, and set up storage solutions.

Managed the setup and maintenance of personal cloud storage systems using HDDs, SATA to USB adapters, and RAID configurations.

Upgraded internal components, including RAM, SSDs, and cooling systems, to optimize performance.

Assisted family and clients with troubleshooting tech issues, network configurations, and device optimization.

Shift Leader / Manager

Burger King, Rock Springs, WY | Feb 2023 - May 2024

Supervised daily operations, team training, and workflow improvements.

Managed cash handling, inventory, and scheduling while ensuring a productive work environment.

Personal Shopper (E-Commerce)

Walmart, Tawas City, MI | Jan 2022 - Oct 2022

Managed online grocery orders, inventory accuracy, and performance metrics for customer satisfaction.

Utilized organizational and efficiency skills to streamline order fulfillment.

Web Developer & Digital Consultant Self-Employed | 2023 - Present

Designed and developed robbinsdirt.com, implementing email routing and basic website functionality.

Consulted on website structure, UI/UX design, and digital marketing strategies for small businesses.

Currently building a portfolio and additional business websites, handling domain setup, hosting, and front-end development.

Property Manager

Mr. Decs, Rock Springs, WY | Nov 2022 - Jan 2025

Managed rental property maintenance, including plumbing, electrical work, and interior renovations.

Coordinated renovation projects efficiently with a focus on cost-effective solutions.

Led a full-scale home remodel, including rewiring outlets, installing appliances, and painting over 4,800 sq ft.

Assistant Store Manager

Spirit Halloween, Greeley, CO & Rock Springs, WY
2021, 2024 (Seasonal)

Oversaw store operations, led team engagement, and optimized seasonal sales.

Provided technical troubleshooting for POS systems and store technology.

RELEVANT PROJECTS & INITIATIVES

Client Website Development

Developed and deployed a custom HTML/CSS website (robbinsdirt.com), including DNS configuration, email routing, and coordination with domain registrars and hosting providers.

Electronics Repair & Upgrades

Performed hardware fixes for laptops, iPhones, and game consoles (e.g., screen, battery, and port replacements), and upgraded a personal Windows laptop (RAM, HDD to SSD), including OS installations and dual-boot configurations.

Device & Data Management

Recovered and reformatted hard drives for cross-platform compatibility (e.g., converting macOS HFS+ to FAT32), compiled and organized tens of thousands of files, and set up basic file server solutions using Orange Pi and external HDDs for shared storage.

Computer Modding & Customization

Extensively modded PC and console games (managing complex file structures, patches, and configuration files), jailbroke iOS devices, sideloaded third-party apps, and customized operating system settings.
